### CELEBRATING DEI IN BUILDING

For the past seven years, CBIA's PWB chapter has committed their philanthropic efforts to promoting DEI (Diversity, Equity and Inclusion) by raising funds and providing scholarships to students in the California Homebuilding Foundation's Donald Chaiken Building Industry Technology Academy (BITA).

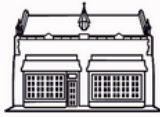

BITA is a four-year high school construction training curriculum for all students, including women, people of color, the LGBTQ community, and students of low-income families.

In addition to mentoring and providing financial assistance to women in BITA, CBIA's PWB chapter is co-hosting their second-annual Workforce Diversity Mixer with the Foundation this fall to help expand BITA into new schools.

Providing support for these programs to grow and thrive will give more opportunities for students to explore construction as a future career path. You can be a part of the solution! - Join us on October 27, 2022 at the Disneyland Resort to celebrate and promote DEI. Learn more at [mychf.org](http://mychf.org).

## CBIA UPDATE: SEPTEMBER 1, 2022 PRESS RELEASE

At the close of the 2021-22 legislative session, the California Building Industry Association (CBIA) issued the following statement by Dan Dunmoyer, President and CEO of CBIA: "We applaud the courage and leadership of the authors and legislative champions of housing bills AB 2011 and SB 6. These two measures are a step in the right direction toward more infill housing near transit hubs." Read more at [cbia.org](https://cbia.org).

## BECOME A MEMBER

When you join the CBIA PWB council, you join the ranks of other dedicated, philanthropic, and successful women and men throughout California who support and uplift one another, both personally and professionally.
